

# LIGHTBULB MOMENTS

Get On With Everyone At Work!

## What's Your 'Colour'?

- Improves teamwork, relationships at work and customer service
- Helps people understand why they and others act the way they do
- It's memorable and recognises our differences
- Identifies our strengths and overdone strengths
- Gives you lots of tools and tricks to help you get on with people and influence those who 'aren't like you'!
- Uses a self-assessment tool called Strengths Deployment Inventory (SDI) which lends a practical element to the session.
- Available as a 90 minute, two-hour or half-day workshop
- Perfect for teambuilding/team meetings or events
- Optional booklets/visual aids for delegates to take away to reinforce the training and remind people when 'back at the desk'
